Subject: *P3C-8YY Mission Briefing*

Stargate Command
United States Airforce

Rescue Mission. *P3C-8YY*

If you want to attempt infiltrating Kuzimu to rescue Ob'roc's family you are going to get more information and help.

Bra'tac was supposed to rendezvous with SG7 off-world but he never showed up.

Tok'ra and Jaffa rebellion intelligence indicates that Bra'tac and other key Jaffa rebellion members were captured. They are being held by Nana-Buluku (Bulu) at a temporary location being interrogated.

Intelligence indicates this should be an easy in and out rescue operation.

A Tok'ra spy will create a distraction that should clear the area around the Stargate. So traveling to the planet should not be an issue.

Priority One, rescue Bra'tac

Priority Two, save the other key members of the rebellion.

M.A.L.P Intel

Because timing is key we will not send a MALP till the very last minute of the mission.

INTEL though reports an average Earth like environment.
